#### **SITUATION SUMMARY**

#### **2017 Statewide Winter Storms**

#### **Cal OES Coastal Region**

#### Paul's Slide, State Route 1, Monterey County

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.

#### Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ½ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- Estimated opening date is 06/01/18.

#### Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Caltrans will continue the process of delivering construction materials and equipment to the site of the demolished bridge on HWY 1 via Nacimiento-Fergusson Road from Hwy 101 on Tuesday, 06/20/17.
- Some equipment will begin moving out one piece at a time throughout the week. These convoys of equipment will be escorted by CHP.
- Effective 07/01/17, there will be a shuttle available until the Pfeiffer Canyon Bridge reopens (estimated reopening date from Caltrans is September 2017) seven days a week, 1200-2000. North shuttle leaves every hour starting at noon. South shuttle leaves every 15 minutes from Loma Vista to Nepenthe. The last shuttle from north to south is at 1700 hours. The last shuttle from south to north is 1900 hours.
- Pfeiffer Big Sur State Park will reopen to the public on 07/01/17 after an 11-month closure due to the Soberanes Fire and winter storms.
- Julia Pfeiffer Burns State Park, Andrew Molera State Park, and Highway 1 at Pfeiffer Canyon Bridge remain closed.

Preparedness Level 3	Preparedness Level 2	Preparedness Level 2	
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2	

#### Mart, Vegetation Fire, San Bernardino, San Bernardino County

Location: Highway 330 north of Highland Ave, San Bernardino

Jurisdiction: Local DPA, LRA/FRA, City of San Bernardino/San Bernardino National Forest

Start Time: 06/27/17 at 1520 hours

Per ICS-209, Cal OES Southern Duty Officer (SDO), Cal OES Law Duty Officer (LDO), and Cal OES Fire Duty Officer (FDO) as of 07/01/17 at 1710 hours:

- · 670 acres grass brush, 95% contained
- Expected Containment: 07/01/17
- · Structure threat mitigated
- · There are no requests for State assistance
- Decrease in acreage due to accurate mapping
- Type-3 Incident Management Team assigned

#### Ben, Vegetation Fire, Mariposa County

Location: Ben Hur Rd. x Silver Bar Rd. Community of Ben Hur Jurisdiction: State DPA/SRA, Madera-Mariposa-Merced Unit

Start Time: 06/28/17 at 1545 hours

Per ICS-209 and the Cal OES Fire Duty Officer (FDO) as of 07/01/17 at 1802 hours:

- 630 acres grass and oak woodland, 90 % contained
- Expected Containment: 07/01/17
- Type-3 Incident Management Team assigned
- Construct and improve line, mop up.

#### **FIRE ACTIVITY**

#### **Cristianitos, Vegetation Fire, San Diego County**

Location: Cristianitos Rd. x Talega Rd.

Jurisdiction: Federal DPA, FRA/DOD, MTZ, Camp Pendleton

Start Time: 06/28/2017 at 1756 hours

Per ICS-209 and the Cal OES Fire Duty Officer (FDO) as of 07/01/17 at 1710 hours:

- 760 acres grass and brush, 95% contained
- Expected Containment: 07/01/17
- 1 Local Government Water Tender assigned
- Mop up and patrol

#### **WEATHER SYNOPSIS BY REGION**

#### NORTHERN CALIFORNIA

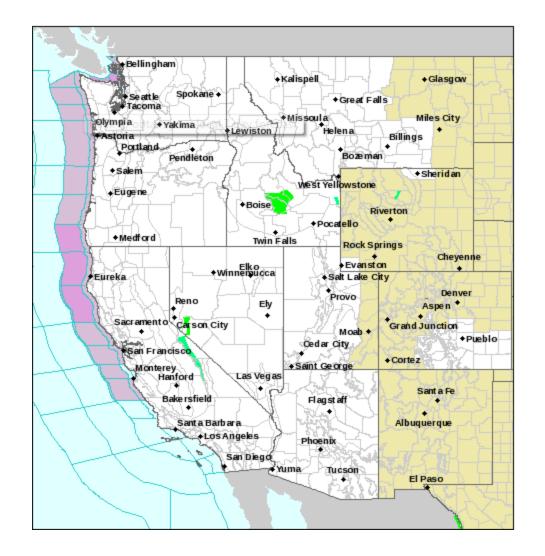

With the trough east of the region. This will lead to higher pressure with light winds and slightly warmer and drier conditions today and tomorrow. There will still be afternoon cumulus over the mountains both days. On Tuesday a South-Southwest flow pattern will set up as high pressure strengthens over the Four Corners area and a Pacific low pressure trough sits offshore. Northwest-Southwest winds will increase in coastal areas and through the delta, and afternoon South-Southwest winds east of the crest will gust to 25-35 mph. Temperatures will remain about the same. There is a chance of afternoon and evening mountain showers and thunderstorms with this pattern, mainly on Wednesday.

#### **SOUTHERN CALIFORNIA**

A weak trough over the West Coast will bring near to a little below normal temperatures this weekend. Maximum temperatures will be in the upper 70s and 80s across the mountains and upper 80s and 90s in the inland valleys. Minimum humidity will be mainly between 15% and 30% above and inland from the marine layer, except there will be widespread single digit humidity across the deserts. The marine layer will remain around 2,000 feet deep. Temperatures will slowly warm tomorrow through the end of next week and most valley temperatures will reach 100 degrees by the end of next week. Minimum humidity will lower early next week and then increase Wednesday through the end of next week as moisture comes up from the southeast to south around the area of high pressure. Isolated afternoon showers and thunderstorms will develop over the Sierra and over the mountains and deserts of the region east of the Cajon Pass Wednesday through the end of next week. South to west winds of 15 to 25 mph with gusts to 40 mph will surface across the wind prone mountain and desert areas each afternoon through the end of next week.

Nothing significant to report.

#### **Cal OES RECOVERY**

#### 2017 Statewide Winter Storms

Presidential Major Disaster Declarations for January/February Winter Storms – FEMA-4301-DR-CA, FEMA-4305-DR-CA, & FEMA-4308-DR-CA

• Assistance for emergency work and the repair or replacement of disaster-damaged facilities was approved for the following counties in at least one of the major disaster declaration: Alameda, Alpine, Amador, Butte, Calaveras, Contra Costa, El Dorado, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Plumas, Riverside, Sacramento, San Benito, San Diego, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba and the Tule River Tribe in Tulare County.

#### **EMAC and Public Assistance - 2017 Winter Storms**

- Cal OES Recovery Division identified the need for Public Assistance subject matter experts to assist with the aftermath of the 2017 Severe Winter Storms. Accordingly, Cal OES requested assistance from other states through the Emergency Management Assistance Compact (EMAC) the Nation's mutual-aid system. New Jersey and Colorado provided personnel that arrived on Monday, 06/13/17. Both states along with other potential states will be providing support between now and the beginning of September at various Joint Field Offices throughout California. The goal is to assist those impacted counties in identifying disaster related damage and program eligibility.
- See Cal OES Mission Tasking slide for Mission Tasking information

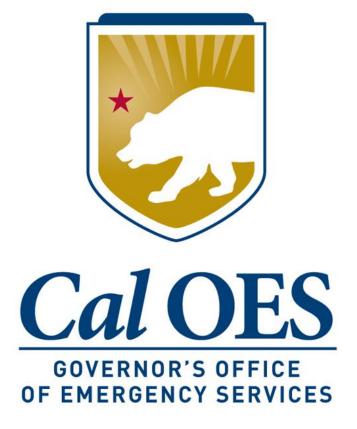

#### **Cal OES MISSION TASKING**

#### **Cal OES Missions**

- **2017-SOC-36209:** Two Public Assistance Coordinators from the state of New Jersey have been assigned to California through the Emergency Management Assistance Compact (EMAC) system
- 2017-SOC-36293: Three Public Assistance Coordinators from the state of Colorado have been assigned to California through the EMAC system.
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.

#### Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
